

HOW TO GUIDE TO INK DUSTING YOUR WAX SEALS

- EMBELISH YOUR SEALS WITH AN INK DUST PAD OR INK PAD STICK
- J HERBIN INK DUST PAD COLOUR WILL APPEAR IN RELEIF
- J HERBIN IND PAD STICK WILL COLOUR THE RAISED IMAGE/LETTER
- SUITABLE FOR USE ON TRADITIONAL OR MODERN WAX SEALS

INSTRUCTIONS FOR USE - INK DUST PADS

1. The J. Herbin Ink Dust Pads are available in Silver and Gold to produce a result that ties in perfectly with your choice of wax colour and envelope colour.

2. Gently impress the seal into the ink pad – this will ink the entire seal except for the letter(s)/ symbol itself. This can be done after you have melted your wax onto the surface to be sealed.

3. Firmly press the seal into the wax to leave the dusted relief and the symbol or letter will be shown as the wax colour.

INSTRUCTIONS FOR USE - INK PAD STICKS

1. Making use of the J.Herbin Ink Pad Stick is an easier, yet more contemporary way to embellish your wax seals. Also available in Silver and Gold you can add the finishing touch to your wax seals with these Ink Sticks.

2. Start by sealing your monogram, symbol or number into the melted wax. Wait a few seconds and then gently dab the Ink Sticks onto the wax seal.

3. You can also complete this process after the seal is dry or to touch up dried seals with an extra special touch.
